MISSION

Cornelia Connelly School inspires young women to achieve academic excellence and develop into confident, articulate leaders who are guided by Catholic principles to serve our global society.

PHILOSOPHY

A Roman Catholic, independent, college-preparatory high school for girls, Cornelia Connelly School promotes academic excellence, faith development, global consciousness and moral and ethical behavior. As a member of the Holy Child Network of Schools, we are true to our core principles of trust, reverence and respect espoused by our foundress Cornelia Connelly. We promote the full development of each young woman and challenge her to appreciate and embody the program goals.

A CORNELIA CONNELLY SCHOOL GRADUATE IS:

A woman of academic excellence, who is an independent thinker, demonstrates intellectual curiosity and pursues a lifelong love of learning.

A woman enriched through a variety of traditional, innovative and creative learning methods, in the spirit of our foundress Cornelia Connelly.

A woman of faith, joy, and action, grounded in the tradition of Roman Catholicism with an understanding and respect for the faith traditions of others.

A woman of compassion who values the dignity of every individual and embraces cultural diversity.

A woman who values her own physical and spiritual worth and the worth of every human being.

A woman who exhibits an appreciation for the visual and performing arts.

A woman of integrity, dedicated to using her leadership skills to inspire and serve the local, national and global communities.

Goals for Schools of the Holy Child Jesus

Foster a faith commitment that engenders a joyous personal response with God in addressing the challenges of the world.

Live, learn, and worship as a dynamic Christian community.

Offer an intellectually challenging and creative program of study that develops a love of learning and academic excellence.

Work for Christian principles of justice, peace, and compassion in every facet of life.

Create a learning climate based on trust and reverence for the dignity and uniqueness of each person.

Promote the personal growth and development of all who participate in the life of the school.

Ensure the continuation and growth of Holy Child mission and philosophy in the school.

LEAD

SERVE

INSPIRE

FOREWORD

The courses have been designed to offer the students a strong college-preparatory course of study. These courses have been reviewed, updated, and revised by the faculty, with student input, and approved by the Academic Council and the Administration.

Students should familiarize themselves with the *2014-2015 Curriculum Guide* and note the graduation requirements. It is recommended that a student's schedule reflect depth of study as well as variety.

Students planning to enroll in AP/Honors courses are asked to carefully review the requirements. Generally, students with leadership, sports or major co-curricular responsibilities are encouraged **not to enroll in more than three Advanced Placement (AP) or Honors courses per semester**. Students enrolled in AP courses are required to take the AP exam.

The purpose of a teacher's recommendation is to maximize the opportunity for the student's success in the designated AP/Honors courses. No one criterion determines eligibility for an AP/Honors course. Completion of summer work is an expectation for an AP course.

Every effort is made to schedule students into their AP/Honors courses. At times, due to scheduling constraints, a student may not be able to be scheduled into all AP/Honors courses requested. **For this reason, students are asked to rank their preferences in order of priority (#1 being the highest priority). Students are responsible for selecting the required courses to satisfy graduation requirements.**

Pre-registration will be completed in the spring. The primary purpose for this will be to determine the electives that will be included on the course list to be posted on www.Edline.net for registration.

The Edline course request submission period for current freshmen, sophomores, and juniors will run from March 24, 2014 – April 30, 2015. The Academic Information section should be consulted for specifics regarding registration and scheduling.

The registration period for incoming freshmen is May 12 and 14, 3:15 – 6 p.m. *by appointment*. To make an appointment, please call Director of Admissions at 714-776-1717 Ext. 234.

ACADEMIC INFORMATION

Cornelia Connelly School, a college-preparatory high school, is accredited by the Western Catholic Educational Association, Western Association of Schools and Colleges, and the California Association of Independent Schools. The school is a member of the National Association of Independent Schools and the National Network of Holy Child Schools.

Graduation requirements are as follows:

English	8 semesters
Fine Arts	3 semesters (Does not include Foundations Course.)
Mathematics	6 semesters
Physical Education	4 semesters (Health is included in Grade 9 P.E. course.)
Religious Studies	8 semesters
Science	6 semesters
Social Science	6 semesters
World Language	6 semesters of the same language
Financial Literacy	1 semester (May be completed with Personal Finance, Economics, or approved electives.)
Elective	2 semesters
Community Service	80 hours (*See Campus Ministry Service Program below.)
Technology	Demonstrate competency through class use of the following programs: Microsoft Word, Microsoft Excel, and Microsoft PowerPoint.

Campus Ministry Service Program:

9th grade	16 hours
10th grade	16 hours
11th grade	24 hours
12th grade	24 hours, plus the Senior Service Learning Project

TECHNOLOGY

The abilities to locate needed information, to evaluate it, and to use and present it effectively are essential skills in the 21st century. It is the goal of the library and all departments to provide a foundation of computer and information literacy for students to use during their education at Connelly and college, as well as useful life skills for the future.

Students will strengthen core academic skills such as word processing, researching, and problem solving by creating and managing online media in individual and collaborative projects. Other areas of focus integrated in the curriculum include: online safety, ethics, appropriate use and copyright.

REGISTRATION

Typically, students enroll in seven courses each semester. Students whose academic work takes them beyond the scope and sequence of the Connelly curriculum may continue their study in a particular field on the college level. Off campus courses taken for credit require approval from the College Counselor, Department Chair, or Assistant Head.

In the spring, juniors meet with the College Guidance Counselor to review courses needed to satisfy graduation requirements. Starting in the second semester, students in grades 9 and 10 meet with their designated academic counselor to review the four-year plan. **Current students will submit their selection of courses online.** It is important that all deadlines be met.

The elective courses listed in this booklet may be changed or canceled at the discretion of the administration. Not all electives are offered each semester.

CURRICULUM GUIDE CODING

9 = 9th grade
10 = 10th grade
11 = 11th grade
12 = 12th grade

Y = Full-year course
S = Semester course
F/S = Two-semester course

HOW STUDENTS SUBMIT COURSE REQUESTS

During the Edline course request submission period, students can add or drop course requests as often as desired. At the end of the course request period, only the most recently submitted requests are downloaded and imported into Administrator's Plus. To submit course requests, students will do the following:

- Log on to www.Edline.net student account, and choose the *Course Requests* option under *My Contents*.
- To add a course request, highlight the desired course in the Course Catalog pane and click *Add*.

Buttons: Add, Drop, Help, Find Next, Submit, Cancel

To drop a course request, highlight the course in the Requested Courses pane and click *Drop*. Once all requests have been added to the Requested Courses pane, click *Submit*.

At any time during the course request period you may add or drop requests.

Since the program does not provide a place to indicate a second or third choice for electives, please email Mrs. Serrano (mserrano@connellyhs.org) to indicate your second and third choices, especially in the Arts. Remember to include your first and last name on the email. Add to this any other pertinent comment that may affect the scheduling of your classes. The clearer your requests, the more likely that you will be scheduled into your preferred courses.

Edline Course Submission period for the current freshmen, sophomores, and juniors begin March 24, 2014. Last day for submission is April 30, 2014.

Class of 2015, please note: If you do not select a minimum of six courses, you will be assigned an elective.
Reminder: For yearlong (2-semester) courses, enter both course numbers.

All financial obligations to Cornelia Connelly School must be completed in order for a student to receive her 2014-2015 schedule.

SCHEDULE CHANGES

- 1. Students are given TWO weeks at the beginning of each semester to make changes in their programs.
 - 2. Students who drop a course after two weeks into the semester will have the course recorded on the transcript as withdraw/pass or withdraw/fail depending on the student's status at time of withdrawal. However, the withdrawal grade will not be calculated into the student's GPA.*
 - 3. The school makes every effort to fill a student's course requests; however, scheduling conflicts sometimes make it impossible to fulfill all of her requests.
- *After 6 weeks, no student may withdraw from a course and receive credit.

GRADING

Letter grades are used on the report card and transcript. The recommended grading scale is as follows:

A+	97.5 - 100	C+	76.5 - 79.4
A	92.5 - 97.4	C	72.5 - 76.4
A-	89.5 - 92.4	C-	69.5 - 72.4
B+	86.5 - 89.4	D+	66.5 - 69.4
B	82.5 - 86.4	D	62.5 - 66.4
B-	79.5 - 82.4	D-	59.5 - 62.4
		F	Below 59.5

The GPA (grade point average) is calculated on courses that are assigned five credits per semester. The following courses are not included in the GPA calculations: physical education, student government, foundation, office aid, and pass/fail courses. Students who take AP or Honors courses receive one extra quality point, which is applicable in the tabulation of the Honor Roll. Students enrolled in an AP course who do not take the AP exam will not receive the extra quality point for the second semester. AP will not be noted on the transcript.

Cumulative GPAs are reported both weighted and un-weighted to colleges.

Although a grade of D is a passing grade, a minimum grade of C- is recommended to move on to the next level. In addition, most colleges and universities will not accept credit for D courses.

Since Connelly is a small, solely college-preparatory school with competitive admissions, rank in class is not used. Calculating and reporting a class rank is a disservice to colleges and to Connelly students because it magnifies slight differences in cumulative GPAs. To better describe Connelly students, a school profile is prepared and accompanies each transcript.

UNIVERSITY OF CALIFORNIA ADMISSION REQUIREMENTS

Complete a minimum of 15 of A-G courses with at least 11 finished prior to the beginning of your senior year.

Subject Requirements

A. History/Social Science:	2 years, including 1 year of U.S. history and 1 year for World history.
B. English:	4 years
C. Mathematics:	3 years, 4 years recommended starting with Algebra I
D. Laboratory Science:	2 years, 3 years recommended in 2 of 3 core disciplines: biology, chemistry, physics
E. World language:	2 years of the same language, 3 years recommended of the same language
F. Visual and Performing Arts:	1 year the same discipline
G. Electives:	1 year (2 semesters) in addition to those required in A-F above

The minimum GPA in A-G courses required for UC eligibility is 3.00, and is calculated only from the grades you earn in those courses in 10th and 11th grade. All students must meet the following minimum requirements:

- Complete 15 UC-required college-preparatory (A-G) courses - 11 of those prior to the start of 12th grade.
- Maintain a GPA of 3.0 or better in these courses.
- Take the SAT Reasoning Test or ACT with Writing.

The University assigns extra points toward a student's GPA for up to eight semesters of certified Honors/AP-level work. Not more than four semesters of courses taken in the 10th grade may be given honor points. D grades do not earn extra points. No extra points are given for Honors English II, Honors Geometry, Honors World History, or Honors Algebra II/Trigonometry. Please consult A-G list for further information.

Note: A-G courses with D and F grades must be remediated.

For the most recent list of Connelly courses that meet University of California requirements for admission, go online to <https://doorways.ucop.edu>. (Directions: Click on *A-G Course Lists*. Choose *High Schools or Programs*. Type in *Cornelia Connelly* and choose a year. Then click *search*.)

CALIFORNIA STATE UNIVERSITY ADMISSION REQUIREMENTS

CSU requires a minimum 15 unit pattern of courses for admission for first-time freshmen. You must complete - with a grade of C or higher - the following pattern of college-preparatory subjects totaling 15 units.

4 years	English
3 years	Mathematics (algebra, geometry, and intermediate algebra)
2 years	Social Science (1 year U.S. history)
2 years	Laboratory Science (1 year biological science, 1 year physical science)
2 years	World Language (the same language)
1 year	Visual and Performing Arts
1 year	Electives chosen from the subject areas listed above

D and F grades in required courses must be remediated.

The GPA is calculated only from the grades you earn in UC A-G courses in 10th and 11th years. One point is added for up to eight semesters of Honors/AP courses completed in sophomore and junior years with a C or better. Four semesters of Honors/AP courses may be taken in the sophomore year. Honors English II, Honors Geometry, Honors World History, and Honors Algebra II/Trigonometry are not given honors credit. Below 2.00 does not qualify for CSU regular admission.

The SAT Reasoning Test or ACT with writing is required as well. The writing section is not used by most CSUs. For more detailed information, go to www.csumentor.com. (Directions: Under *Plan* – at the lower left - click on *Admission requirements*, then *High School Students*, then read the information for Freshman Admission Requirements for California Residents.

SUMMARY OF COLLEGE EXAMINATIONS

COLLEGE ENTRANCE EXAMINATION TESTS

1) SAT Reasoning Test: A three-hour and 45-minute test given at various sites (high schools and colleges/universities) in the morning of each test date* listed below. The test is a measure of critical reading, mathematical and writing skills designed to indicate a student's ability to do college work. Since March, 2005, it has included a 25 minute handwritten essay. The test can be taken more than once and should be taken for the first time at least by spring of the junior year. Schedules, practice test questions, application forms and information on several prep programs are available in the College Center. Registration is done online @ www.collegeboard.com.

Required by:

University of California

California State Universities

Private colleges/universities in California and out-of-state

Out-of-state public universities (check individual college Web sites)

Most scholarships

***Dates** are usually the first Saturday of the month in October, November, December, January, March, May and June. Please refer to the Connelly calendar for exact dates.

2) SAT Subject Tests: One-hour tests given at various sites in the morning of each test date* listed below. One to three tests can be taken on each date. The tests fall into five general areas: Literature, history and social studies, mathematics, sciences, and world languages. Students should take the tests in the June following a year of a particular subject, starting as early as 9th grade. Final tests can be taken in the fall of the senior year.

Two SAT Subject Tests will no longer be required for UC admissions. However, students can still choose to submit their scores for consideration as part of their application just as they now do with AP scores. The Subject Tests may be recommended or required for certain majors, programs of study, or private schools. Anyone taking an AP course is encouraged to take the corresponding subject exam.

***Dates** are usually the first Saturday of the month in October, November, December, January, March, May and June. Please refer to the Connelly calendar for exact dates.

3) ACT: A three-hour and 30-minute test given at various sites in the morning of each test date* listed below. The test contains multiple-choice sections in English, mathematics, reading, and science. As of spring 2005, an optional writing section has been added. Most colleges and universities require the writing section as well. All students are encouraged to take the writing portion.

Every college/university in the United States accepts the ACT in place of the SAT Reasoning Test.

Required by or allowed in lieu of the SAT Reasoning Test:

A. University of California (plus writing section)

B. California State Universities

C. Private colleges (check individual colleges)

***Dates** are usually October, November, December, January, March, May, June. Please refer to the Connelly calendar for exact dates.

4) PRELIMINARY SCHOLASTIC APTITUDE TEST (PSAT)/NATIONAL MERIT SCHOLARSHIP QUALIFYING TEST

(NMSQT): A two-hour and 30-minute test; a shortened version of the SAT. PSAT/NMSQT is not an admissions test.

Required by: National Merit Scholarship Corporation

Date: October (given along with a 25-minute essay to sophomores and juniors at Connelly) Please note: only junior year scores qualify for the National Merit Scholarship.

ADVANCED PLACEMENT (AP) EXAMINATIONS

The Advanced Placement Program, sponsored by the College Board and administered by Educational Testing Service, offers students the opportunity to participate in challenging college-level course work and to receive credit, advanced placement, or both in college. AP courses and their corresponding examinations are prepared annually. The AP examinations are administered to students at Connelly each May. Each exam consists of a multiple-choice and a free-response section. Spanish Language exams include listening and speaking components. Most exams are three-hours-long. Grade reports are sent to the candidates, Cornelia Connelly School, and the colleges and universities the senior students designate. AP grades provide the institutions with the opportunity to evaluate and acknowledge achievement by awarding college or elective course credit and/or advanced placement.

Advanced Placement Examination grades are reported on a five-point scale as follows:

- 5 = Extremely well qualified
- 4 = Well qualified
- 3 = Qualified
- 2 = Possibly qualified
- 1 = No recommendation

In general, an AP grade of 3 or higher indicates sufficient mastery of course content to allow exemption from a college course comparable to the AP course, placement in the succeeding college course, or credit. Credit and placement policies are determined by each college or university. Students are urged to contact colleges and universities to request the specific AP policies in writing.

CALIFORNIA SCHOLARSHIP FEDERATION (CSF)

Requirements for Semester Membership

1) Membership is based only on scholarship and citizenship. Membership enrollment is held during the semester following the one in which the qualifying grades were earned and is for one semester only. In order to become a member, a student must submit an application each semester she is eligible. Students do not become eligible until sophomore year.

2) To secure eligibility for CSF membership, a student must earn sufficient points from the following course lists. Both LIST I and LIST II courses must include academically challenging material and substantial amounts of reading and writing **and** must integrate critical thinking and problem solving skills.

LIST I - Core curriculum, college-preparatory classes:

- All English classes
- All world language classes
- All mathematics classes
- Biology, chemistry, physics, anatomy & physiology
- World history, U.S. history, government, and economics
- Honors and AP sections of the above.

LIST II - Courses outside the core curriculum:

- Science electives
- Art history
- Religious studies courses
- Social science electives

LIST III - Other courses:

- Yearbook
- Visual/Performing Arts

3) A student must have taken a minimum of three courses from LISTS I and II; at least two of these three courses must be from LIST I only. To warrant eligibility for semester membership, a student must earn a minimum of 10 CSF points. Of these 10 points, seven points **MUST** be earned in courses from LISTS I and II, while the remaining three points **MAY** be earned in courses from any LIST (I, II, or III). Of the 7 points required from LIST I & II courses, at least four points **MUST** be earned in LIST I courses alone. Only grades from five courses are considered.

4) CSF points for courses earning five semester credits shall be calculated as follows:

- A grade of A three CSF points
- An extra CSF point is given for as many as two Honors/AP courses in which an A or B is earned
- A grade of B one CSF point
- A grade of C zero CSF points
- A grade of D or F in any course shall disqualify a student from membership for that semester.

COURSE OFFERINGS

CAMPUS MINISTRY SERVICE PROGRAM

Through classes and activities, students and faculty attempt to discover what it means to have Jesus Christ as our model. In each relationship, Jesus' words, "Whatsoever you do to the least of my sisters and brothers, this you do unto me," give a special meaning to efforts to reach out to those in need.

The biblical call to "act justly, to love tenderly, and to walk humbly with God" leads us to responsible action in our needy world. The school's philosophy, based on gospel values, focuses on a central theme of a belief in the dignity and worth of every human being. This, too, confirms our desire to participate in the betterment of life for all.

Service to others is an essential element of Christian living. Experience, exposure, education, and prayerful reflection make it possible to grow in a commitment to service. Because Cornelia Connelly School believes in Jesus Christ and in serving others, a required Campus Ministry Service Program is part of each student's education.

1. To offer experiences which expose students to areas which need social transformation.
2. To provide the opportunity for students to engage in responsible actions, which lead to the enrichment of all.
3. To help each student shift her focus beyond her individual needs, thus deepening her commitment to serve others.
4. To encourage faculty and family participation in and support of the Campus Ministry Service Program.
5. To encourage a life-long commitment to service.

Graduation Requirement: 80 hours

9th grade *16 hours (8 hours focusing on ecology and 8 hours focusing on children)

10th grade *16 hours (8 hours focusing on the poor and 8 hours focusing on the elderly)

11th grade 24 hours (student's choice)

12th grade 24 hours (student's choice in a concentrated area)

A Senior Service Learning Project to be completed in the third quarter of the senior year and presentation of the project to the school assembly in May.

* Hours are required. Areas listed are strongly recommended to provide students with different service experiences.

The areas of focus – ecology, children, poor and elderly – are suggestions for each grade. They may be experienced interchangeably for each grade. The program is currently being reviewed as to the feasibility of enhancing it by adding a service learning component to all grade levels.

ENGLISH

The course offerings that follow are intended to be viewed as steps in a cumulative process. For all levels, the English Department operates from the philosophy that writing is a process requiring attention to all stages of creation, including prewriting, drafting, peer evaluation, editing, and eventual presentation. Furthermore, we believe strongly that learning is largely student produced. Therefore, all courses place a heavy emphasis on student-generated discussion and analysis of texts. We teach a broad, inclusive range of literature and nurture a free and responsible exchange of ideas in the hope of fostering and inspiring a respect and affinity for literature and the English language

itself. In conclusion, the English department is committed to merging its offerings with other humanities departments in order to offer a more comprehensive interdisciplinary curriculum.

The following competencies are expected and fostered in the students at Cornelia Connelly School. The English Department expects that these skills, begun in the student's first year, will continue to be honed throughout her four years at Connelly.

Basic competencies include:

- Reading actively rather than passively
- Accepting responsibility for learning the meanings of unfamiliar words
- Being conversant with aspects of plot, tone, point of view, and other literary and rhetorical devices
- Ability to distinguish various writing structures and observe structural complexities and subtleties
- Ability to develop multiple readings of texts that are adequately supported by textual evidence
- Proficiency in the writing-as-process philosophy, which includes peer evaluation, editing, revising, and publication
- Developing competent and authentic voices appropriate to their levels of knowledge
- Showing a regard for the thought processes of each student, thereby fostering a classroom community that respects the ideas expressed by all members of the class
- Developing a broader base of experience to be applied to the students' lives and to their writing
- Ability to select and explicate specific passages and incorporate them into a developed analysis
- Recalling and synthesizing ideas, motifs, and stylistic patterns studied in earlier courses and applying them to works that the students are currently reading
- Being able to differentiate various critical interpretations and theories and to compare and contrast them with their own
- Being willing and able not only to participate in, but also to generate, class discussions

Graduation Requirement: 4-year sequence

ENGLISH I:

**INTRODUCTION TO LITERATURE/
CLASSICAL LITERATURE 805/806**

Semesters	Credits	Grade
Y	10.0	9

The first semester launches Connelly's writing program and introduces the theory that vocabulary and grammar are taught prescriptively. Students review the tools of basic research in a variety of writing assignments, including, but not limited to, comparison/contrast and opinion essays. They also write creative pieces, including aphorisms, poetic fragments, and poems, as part of their study of world literature, and creative sentences, which incorporate the vocabulary they learn into everyday writing. In addition, the course familiarizes students with diverse literary types: through a reading of multicultural texts, students will investigate the short story, the novel, drama, and poetry. The curriculum covers world literature from 1800 BCE to modern times and will expose students to common literary themes throughout the world and its history in literature. Some of the major texts include Homer's *The Iliad*, Sophocles' *Oedipus Rex*, and Shakespeare's *Romeo and Juliet*. Throughout the year, students will work on public speaking skills and presentations to help them become comfortable speaking in front of a group. Students will participate in the Freshman Showcase demonstrating the skills learned in the Research and Rhetoric module of the Foundations course and by integrating the various topics introduced in English I: Poetry, drama, literature, or selected writing samples.

HONORS ENGLISH I:

**INTRODUCTION TO LITERATURE/
CLASSICAL LITERATURE 929/930**

Semesters	Credits	Grade
Y	10.0	9

Like the College Prep English class, this course introduces students to Connelly's writing program and introduces the theory that vocabulary and grammar are taught prescriptively. Students review the tools of basic research in a variety of writing assignments, including, but not limited to, comparison/contrast and opinion essays. They also write creative pieces, including aphorisms, poetic fragments, and poems, as part of their study of world literature, and creative sentences that incorporate the vocabulary they learn into everyday writing. In addition, the semester familiarizes students with a diversity of literary types: through a reading of multicultural texts, students will investigate the short story, the novel, drama, and poetry. The curriculum covers world literature from 1800 BCE to modern times and will expose students to common literary themes throughout the world and its history in

literature. Some of the major texts include Homer's *The Iliad*, and Sophocles' *Oedipus Rex*, as well as Shakespeare's *Romeo and Juliet* and *Twelfth Night*. Throughout the year, students will work on public speaking skills and presentations to help them become comfortable speaking in front of a group. Students will participate in the Freshman Showcase demonstrating the skills learned in the Research and Rhetoric module of the Foundations course and by integrating the various topics introduced in English I: Poetry, drama, literature, or selected writing samples.

This is an honors-level course. To receive honors credit, students are expected to perform at a high level and go beyond the basic facts and interpretations.

Prerequisites: Incoming freshmen who have demonstrated strength in their previous English courses will be evaluated for placement at this level on the basis of their performance on an English placement exam scheduled for April 24, 2014.

ENGLISH II

BRITISH LITERATURE 807/808

Y	10.0	10
---	------	----

This course is a chronological survey that traces British literature from the Anglo-Saxon period to the mid-20th century and pays particular attention to the development and transformation of the English language through the literature. Areas of study will include *Beowulf*, *The Canterbury Tales*, Arthurian legends, Elizabethan poetry, Shakespeare's *Macbeth*, poetry of the 17th and 18th Centuries, the essay and political satire, Romantic and Victorian poetry, the novel, 20th-century short stories, and poetry of the Modern era.

The writing component of English II will further develop the skills established in English I. The course will reinforce vocabulary building and basic grammar, particularly in the context of the writing process. Students will compose analytical papers that present a thesis and use textual evidence as support. Students will be introduced to the foundational elements of research and MLA documentation.

HONORS ENGLISH II:

BRITISH LITERATURE 952/953

Y	10.0	10
---	------	----

This course is a chronological survey that traces British literature from the Anglo-Saxon period to the mid-20th century and pays particular attention to the development and transformation of the English language through Arthurian legends, Elizabethan poetry, two Shakespeare plays, poetry of the 17th and 18th Centuries, the essay and political satire such as *Gulliver's Travels*, Romantic and Victorian poetry, the novel (*Frankenstein* and *Jane Eyre* or *Pride and Prejudice*), 20th-century short stories, and poetry of the Modern era.

The writing component of English II will further develop the skills established in English I. The course will reinforce vocabulary building and basic grammar, particularly in the context of the writing process. Students will compose analytical papers that present a thesis and use textual evidence as support. Students will also be introduced to the foundational elements of research and MLA documentation.

Honors English II requires more extensive reading and writing than the English II course. Students will read more selections from each area of study and will be expected to approach the texts with an earnest eye toward analysis.

Prerequisites: Students must have satisfactorily completed either English I with an A- or Honors English I with a grade of B+ or better. Department approval and a written placement exam also are required. The placement exams were administered in their current English classes on February 19 and 20, 2014.

ENGLISH III:

AMERICAN LITERATURE 835/836

Semesters	Credits	Grade
Y	10.0	11

This course is designed to introduce students to the major literary periods, authors, and concepts in American literature. It is a chronological survey that traces American literature from the Early Colonial to the Modernist period. Students will be introduced to concepts, histories, authors, and major themes in American literature.

The first semester will cover readings from the Early American and Colonial Period through American Romanticism. Writers will include, but are not limited to, Puritan poets, writers of the Revolution, Emerson, Thoreau and other major American Romantics. In addition, students will read one Shakespeare play that underscores important themes and/or literary elements being addressed in the course. The second semester will

include short stories, essays and poetry from the Age of Realism and Naturalism, the Harlem Renaissance and Modernism. The students also will read a number of key American novels, such as *The Adventures of Huckleberry Finn* and *The Great Gatsby*.

Critical writing skills will be stressed over the course of the year; writing responses will be grounded in the literature and the literary period. Students will complete several formal essays that develop MLA parenthetical citation, explication, and analysis. In the second semester, students will produce a research paper that includes secondary resources, along with textual citation and analysis. At the end of each semester, students will complete a cumulative final that tests their comprehension of material covered within each semester and includes an essay writing component. In addition to literature and composition, English III will continue to develop grammar and vocabulary skills begun in the freshman and sophomore years.

HONORS ENGLISH III:

AMERICAN LITERATURE 964/965

Semesters	Credits	Grade
Y	10.0	11

This course is designed to introduce students to the major literary periods, authors and concepts in American literature. It is a chronological survey that traces American literature from the Early Colonial period to the Modern period. Students will be introduced to concepts, histories, authors, and major themes in American literature.

The first semester will cover readings from the Early American and Colonial Periods through American Romanticism. Writers will include, but are not limited to, Puritan poets, writers of the Revolution, Emerson, Thoreau and other major American Romanticists. In addition, students will read one Shakespeare play that underscores important themes and/or literary elements being addressed in the course. The second semester will include short stories, essays and poetry from the Age of Realism and Naturalism, the Harlem Renaissance and Modernism. The students also will read a number of key American novels, such as *The Adventures of Huckleberry Finn* and *The Great Gatsby*.

Critical writing skills will be stressed over the course of the year: writing responses will be grounded in the literature and the literary periods. Students will complete several formal essays that develop MLA parenthetical citation, explication, and analysis. In the second semester, students will produce a research paper that includes secondary resources, along with textual citation and analysis. At the end of each semester, students will complete a cumulative final that tests their comprehension of material covered within each semester and includes an essay writing component. In addition to literature and composition, Honors English III will continue to develop grammar and vocabulary skills begun in the freshman and sophomore years. Honors English III requires more extensive reading and writing than the English III course. Students will read more selections from each area of study and will be expected to approach the texts with an earnest eye toward analysis.

Prerequisites: Students must have satisfactorily completed either English II with a minimum of an A- or Honors English II with a minimum of a B+. Approval of the English department faculty and a written placement exam also are required. **The placement exam was administered in the English classes on February 19 and 20, 2014.**

ENGLISH IV:

WORLD LITERATURE 845/846

Semesters	Credits	Grade
Y	10.0	12

English IV challenges students to read and interpret a wide range of imaginative works of world literature from Antiquity through the Modern era, primarily from the western canon. With emphasis on major authors and literary trends, the course invites students to explore a variety of genres and literary styles and to write clearly about the literature they encounter.

Throughout the course of the year, we will study a diverse, multicultural body of literature that reflects these styles. Major writers include, but are not limited to, Homer, Sophocles, Euripides, Virgil, Dante, Chaucer, Shakespeare, Marlowe, Racine, Voltaire, Molière, Chekov, Ibsen, Dostoevsky, Stoppard, Sartre, Camus, Beckett, Huxley, Ibsen, Orwell, and Woolf. By the end of the course, students will have cultivated a rich understanding of literary works and acquired a set of analytical skills they will use throughout their lives; they will have acquired a broad-based knowledge of literature that builds upon literature courses of previous years and prepares them for college. Students will do close readings of fiction, poetry, and plays and write well-constructed analyses and arguments about them. Writing assignments also will include essay exams, reader response journals, free-writing, and in-class essays. In addition, English IV will continue to develop grammar and vocabulary skills learned in the previous three years.

Assistance in editing and revising college essays will be available for all seniors during conference period throughout the first semester.

ENGLISH IV:

AP ENGLISH 982/983

Semesters	Credits	Grade
Y	10.0	12

HONORS ENGLISH IV 989/990

AP English Literature challenges students to read and interpret a wide range of imaginative works of world literature from Antiquity through the Modern era, primarily from the western canon. With emphasis on major authors and literary trends, the course invites students to explore a variety of genres and literary styles and to write clearly about the literature they encounter. On a daily basis, students will be required to read critically, think clearly, and write concisely. By the end of the course, they will have cultivated a rich understanding of literary works and acquired a set of analytical skills they will use throughout their lives; they will have acquired a broad-based knowledge of literature that builds upon literature courses of previous years and prepares them to take the AP English Literature and Composition exam.

The course will emphasize the study and consideration of the literary, cultural, and human significance of selected great works of the Western tradition, focusing on representative works of fiction, poetry, and drama that illustrate literary and intellectual developments from the beginning of recorded literature. An important goal of the class is to promote an understanding of the works in their cultural/historical contexts and of the enduring human values that unite the different literary traditions. The course will give special attention to close reading of fiction, poetry, and plays, to critical thinking, and to writing well-constructed analyses and arguments about them within a framework of cultural diversity, as well as comparative and interdisciplinary analysis. Writing assignments will also include essay exams, reader response journals, free-writing, and in-class essays. In addition, AP English/Honors English IV will continue to develop grammar and vocabulary skills learned in the previous three years. Assistance in editing and revising college essays will be available for all seniors during conference period throughout the first semester.

AP English/Honors English IV is a college-level course that requires considerably more reading and writing than the English IV course; students are expected to demonstrate high-level critical thinking and analytical skills. **Note: AP English students are expected to take the AP English Literature exam. Honors English IV students may choose to take the AP exam, but they are not required to do so.** **Prerequisites:** Students must have satisfactorily completed either English III or Honors English III with a grade of at least an A-. Approval of the English department faculty and a timed writing sample are required. **The placement exam was administered in the English classes on February 19 and 20, 2014.**

ELECTIVES

Note: English electives are taken in addition to the required English courses.

YEARBOOK 2012-2013 841/842

Semesters	Credits	Grade
Y	10.00	9-12

This course exposes students to the materials, techniques, and vocabulary of the graphic arts and desktop publishing fields. While under the guidance of the advisor, students complete various assignments to produce a professional-looking finished product. All students are required to participate in production through photography, copywriting, editing, and designing. Deadlines are a critical component of the course, and students will be graded primarily on their ability to meet all required deadlines with quality work. Student placement on the staff is based on previous art, journalism, or photography experience, on writing ability, on typing and computer skills, and on their ability to work diligently and independently to complete assignments. This class typically meets twice a week – schedule to be determined in the fall – for a total of three hours. Students are expected to work on yearbook assignments from their home computer. Strong motivation, sincere commitment, and regular attendance are crucial. **Because this is a production course, students must sign up for the entire year and cannot drop the course after the first two weeks without penalty. This course is not recommended for students participating in sports.**

FINE ARTS

"Curiosity, Creativity & Research . . . such intellectual pursuits combined with a sense of beauty & joy of living, are essential components in forming our students attitude toward life." - The Cornelia Connelly Philosophy

The Fine Arts Department echoes the Cornelia Connelly Philosophy and believes that teaching critical thinking skills enables each student to ask educated questions as she defines and develops her appreciation for the arts. In addition, the Fine Arts Department provides each student with opportunities to fully explore the expressive potential within her. The Fine Arts Department also is committed to fostering an interdisciplinary approach to the arts, encouraging the student to incorporate various levels of content in her creative efforts. We encourage students to integrate their connections and knowledge of the humanities, history, literature, philosophy, personal spirituality, and science.

Graduation Requirement: Three semesters

FOUNDATIONS IN FINE ARTS

AND SPEECH SKILLS 200/203

Semesters	Credits	Grade
S	5.0	9

This course serves as the introductory study for a variety of Fine Arts courses. The fundamental elements of art, speech including information literacy, and music will be studied in breadth. This semester course is provided to allow the student to become confident and comfortable with their abilities in the arts and speech.

The art module of Foundations invites the student to explore and become confident with the basic elements of art including line, shape, form, value, and contrast through drawing and painting. The student will be introduced to the use of light sources and to still life drawing through realism and generally becoming comfortable drawing from life and imaginary sources. Students will become familiar with the use of a variety of mediums including watercolor to investigate the use of perspective as a tool for artists. Students will ultimately participate in the Freshman Showcase Art Show.

The choral module of the Freshman Foundations course introduces the student to creating vocal music as part of a large group in the context of a vocal ensemble. The student will be introduced to the basics of vocal production/vocal technique; breathing as utilized for singing; vocal registration and pitch recognition; the interpretive elements of the music making process; singing in parts; an introduction to navigating a choral score and music theory; and the basics of performance protocol in the context of preparing one performance per semester as part of the Freshman Choir.

The speech, research and rhetoric module included in this freshman core program is a foundation for all further courses at Connelly. Students are provided the opportunity to practice strategies for public speaking and gain confidence in delivering a variety of speeches including impromptu, extemporaneous, persuasive, and research-based informational speeches. Students will gain familiarity with the effective use of props and visuals during a speech, including a technology-based presentation created in PowerPoint or a comparable online presentation tool. Students are introduced to the principles of research as well as the skills needed to use and evaluate a variety of information resources, with special attention paid to online resources including subscription databases and internet indexes.

Students also will participate in the Freshman Showcase. **NOTE:** Course does not count in GPA.

STUDIO ART I AND II 244/245

Semesters	Credits	Grade
Y	10.0	10-12

This yearlong course introduces concepts, skills, and techniques of two-dimensional art including line, shape, balance, design, color theory, and composition. Each student will utilize multiple mediums to allow her to discover art through different projects including drawing with pencil, ink, paint, pastel, printmaking, soft sculpture, and design. A historical perspective will be introduced with readings and discussion. **NOTE:** This class is a prerequisite to all other Visual Art classes.

INTRODUCTION TO COMPUTER GRAPHICS (GRAPHIC DESIGN) 279/280

Semesters	Credits	Grade
Y	10.0	10-12

The purpose of this yearlong course is to introduce the student to the basic concepts of computer graphic design. Students will utilize colors, shapes, photographs, photographic manipulation and different fonts to create their

designs. Additional concepts such as logo, industrial, and commercial design will be explored as well. While creation is an important part of a designer's job, presentation is just as important. Students will also learn how to mount and present their work in a professional manner. This course will primarily utilize Adobe Illustrator and Photoshop and an introduction to each program will be presented. Students will utilize graphic tablets and are expected to personally create most of their work.

Prerequisite: Students must have completed one year of Studio Art or have consent of the instructor by showing a portfolio demonstrating competency in the arts.

GRAPHIC DESIGN II 291/292 Y 10.0 11-12

This yearlong course continues the student's exploration into the world of Graphic Design. Students are expected to have an advanced understanding of both Adobe Illustrator and Photoshop. Students will move beyond creating simple two-dimensional designs and will focus on constructing packaging and displays. Designs, logos, and art will be created using graphic tablets. Students will be expected to show a mastery of the Adobe Graphics Suite.

Prerequisite: Satisfactory completion of Graphic Design I.

ADVANCED STUDIO ART-PAINTING I 246/247 Y 10.0 10-12

This exciting yearlong course will allow the student to continue to explore concepts of art through the mediums of paint and pastel. All mediums of paint will be addressed including pastel, watercolor, acrylic, and oil. The course will include projects in Realism, Abstract, and Non-Objective Art design.

Prerequisite: Studio Art I and II

		Semesters	Credits	Grade
ADVANCED STUDIO ART-CERAMICS	261/262	Y	10.0	10-12

This year long course will provide a stimulus for exploring three-dimensional art by means of design through clay ceramic sculpture. All of the projects will be hand built and include coil and slab building, construction of vessels that can hold liquid, mask making, a trompe l'oeil project, and other three-dimensional projects.

Prerequisite: Studio Art I and II

ADVANCED STUDIO ART-PAINTING II 293/294 Y 10.0 10-12

This advanced yearlong course will provide a forum in which the student will develop and create a portfolio of advanced artwork and continue to explore concepts and styles of art through a variety of the mediums and subject matter of her choice. This class allows for particular focus on the student as an artist and development of her personal style of creativity.

Prerequisite: Studio Art I and II, Painting I, and teacher approval. A portfolio of substantial work may be submitted to the teacher for approval in lieu of Painting I.

AP STUDIO ART 978/979 Y 10.0 10-12

This yearlong college level course will allow the highly motivated student to create a serious portfolio of individual work that will ultimately be submitted to the College Board for review and possible college credit. This course is designed for the student who is actively pursuing growth in her art skills or wishes to concentrate in art during college and wants to look at art as a profession. Any student wishing to take this course must first show themselves to be up to the rigorous nature of this course. Every student will first temporarily be enrolled in Painting II for a period of 12 weeks. At this time the student's work and dedication to the completion of this college level course will be evaluated and the student will be re-registered into AP Studio Art.

Prerequisite: Consent of the instructor after evaluation of class work, contract of study, Studio Art I and II, and a year of Advanced Art or comparable portfolio.

AP ART HISTORY 980/981 Y 10.0 10-12

This comprehensive history of art course examines major forms of artistic expression from the past and present and from a variety of cultures. Although the emphasis of the course will be on Western art, we also will cover Non-European Art, including art of the ancient Near East, Egypt, Islam, Africa, the ancient Americas, and Asia. Students will learn to look at works of art critically, with intelligence and sensitivity, and to analyze what they see. The course promotes an understanding of 1) Architecture, Sculpture, Painting, Drawing, and other Art forms, 2) the elements of Art, fundamental Art History terminology, and technical processes used in the production of art, and 3) works of art in historical and

cultural contexts, considering such issues as patronage, gender, function, and the effects of art. No prior experience in art or art history is required, but the course demands a high degree of commitment to academic work and to the purposes of a program designed to meet college standards. Students will be required to critique works of art intelligently and to write about them effectively. Attendance and participation are essential because considerable class time will be devoted to examining and analyzing individual works of art, with student reviews and interpretation a significant part of the grade. Students are required to complete extensive summer reading assignments, and there will be additional meetings outside of class to prepare for the AP Exam. **Note: Students who enroll in this course are expected to take the AP Art History Exam.**

PERFORMING ARTS

VOCAL ENSEMBLE 253/254

Y 10.0 10-12

A non-auditioned ensemble that will address basic- to intermediate-vocal techniques. Posture, breath support, vowel production, tone color, and vibrato will be introduced and developed. Music theory and sight-reading will be introduced as music is explored through many languages, cultures, and styles. A portion of the course will be taking part in performances during the school year as well as participation in school liturgies.

HONORS ADVANCED

Semesters Credits Grade

VOCAL ENSEMBLE 269/270

Y 10.0 10-12

An auditioned ensemble that will address intermediate to advanced vocal techniques. A major portion of the course will be performances during the school year as well as participation in school and other diocesan liturgies. Music theory and sight-reading will be refined as music is explored through many languages, cultures and styles. Vocal techniques such as breath support, vowel production, tone color, and vibrato will be developed.

Prerequisite: Audition; Consent of the instructor.

BEGINNING HANDBELL

ENSEMBLE 251/252

Y 10.0 10-12

The Connelly Handbell Ensemble will focus on beginning to intermediate handbell techniques. The class will begin with basic music Theory as it pertains to handbells, including introductions to rhythm, pitch recognition, dynamics, articulation techniques, as well as expression and musicality. The ensemble will be expected to participate fully in many liturgies at Connelly as well as perform in concerts and festivals throughout the school year. Also addressed will be appropriate handbell usage in Catholic liturgy as well as viable performance medium in concerts.

ADVANCED HANDBELL

ENSEMBLE 271/272

Y 10.0 10-12

The Connelly Advanced Handbell Ensemble, an auditioned ensemble, will focus on intermediate to advanced handbell techniques. The class will continue the study of Music Theory as it pertains to handbells, including more complex rhythms, faster pitch recognition, extreme dynamics, articulation techniques, as well as further exploration of expression and musicality. The ensemble will be expected to participate fully in many liturgies at Connelly as well as perform in concerts and festivals throughout the school year. Also addressed will be appropriate handbell usage in Catholic liturgy as well as viable performance medium in concerts.

Prerequisite: Audition, Consent of instructor

TRI-SCHOOL THEATRE CLASSES

Tri-School Theatre is an educational theatre ministry that uses the performing arts as a way for students to discover themselves and to nurture their God-given talents through process-oriented training in a Christ-centered environment. Tri-School Theatre has been recognized by the Educational Theatre Association, the California State Thespian Organization and the Music and Arts Commendation for Youth Organization for excellence in secondary arts education.

Course Fees: \$155 per elective class, \$415 for yearlong classes. Payment plans available. To register for these courses, please fill out a registration form/emergency form and mail with payment to Tri-School Theatre, 1952 W

La Palma Ave, Anaheim CA 92801. For more information, please call the Tri-School office at 714-774-7575 Ext. 1155 or visit the Web site www.trischool.org.

Yearlong Conservatory

Tri-School Theatre offers yearlong courses in technical theatre and performance. These classes are for the serious student of theatre. None of these classes are graded. Students will have the opportunity to perform in showcases. All classes are held at the Servite Theater. A schedule will be handed out on the first day of class.

Elective Courses

Tri-School Theatre offers elective courses in technical theatre and performance. Electives are offered in the fall, winter and spring for 7-week periods. At the end of each session, student work is presented at a showcase. None of these classes are graded. All classes are held at the Servite Theater. A schedule for the year is handed out on the first day of each class.

	Semesters	Grade
ACTING I	Y	9-12
This class is a foundation for all future work at Tri-School. Students will learn to work as an ensemble, and begin developing storytelling, monologues and scenes. Other projects may include improv, movement and voice. This course is geared for students who have not yet studied theatre in high school, though some may have experience from elementary school or junior high.		
ACTING II	Y	10-12
This course provides a more intense study of scene work and monologues. This class requires a year of theatre experience at the high school level. Prerequisite: Acting I		
ACTING III and IV	Y	11-12
This advanced-level class will build on the ensemble with such topics as theatre genres, styles, and acting methods. This course is a continuation of the study of voice and movement, and emphasizes self-awareness. This class requires two or three years of theatre experience at the high school level. Note: This class is repeatable. Prerequisite: Acting II		
INTRO TO TECHNICAL THEATRE	Y	9-12
This class is a foundation for any student interested in learning about technical theatre. Course topics include lighting, sound, set shop, stage management, and production coordination. This class combines classroom work with hands-on experiences. There is no previous training or experience necessary. Students from this class will receive top priority on crew assignments for the fall and spring productions.		
TECHNICAL THEATRE II	Y	10-12
This second-level class is the next step for students interested in learning about technical theatre. Course topics expand to include designing. This class combines classroom work with hands-on experience. Students will receive priority on crew assignments for the fall and spring productions. Prerequisite: Technical Theatre I		
TECHNICAL THEATRE III AND IV	Y	11-12
This advanced-level course will include topics from the previous courses, but in more depth and with an emphasis on design, for example, in lighting and set shop. Students from this class will receive top priority on crew head assignments for the fall, winter and spring productions. Note: Class is repeatable. Prerequisite: Technical Theatre II		
MONOLOGUE	S	9-12
Receive individualized coaching on a monologue selected especially for you. Highly recommended for students who audition for plays. No experience necessary. Note: Class is repeatable.		

MUSICAL THEATRE**S****9-12**

This class will help you select, prepare, and present a musical theatre song for auditions, and to showcase your talent. No experience necessary - singers and non-singers welcome. **Note:** Class is repeatable.

MAKE-UP DESIGN**S****9-12**

This hands-on course will show you how to apply basic stage make-up, as well as scars, wounds, and old-age effects. No experience necessary. **Note:** Class is repeatable.

CABARET**S****10-12**

Create a musical performance about your life through song. Develop and perform your own one-person act. Performance is on a day separate from Showcase. Recommended for juniors and seniors with some theatre experience. Instructor approval required. **Note:** Class is repeatable.

MATHEMATICS

The philosophy of the Mathematics Department is to foster self-confidence and an appreciation of the process of learning and thinking logically in each student. In accordance with this philosophy, recommendations of the instructor are utilized to place each student in the courses where she will learn the most and achieve the greatest success.

Any course taken outside of Connelly must be approved by the department chair and the Assistant Head of School. Core courses of Algebra I and Algebra II cannot be taken during the summer for advancement. Geometry and Precalculus may be taken during the summer if the course is designed for advancement (not enrichment or remediation). A comprehensive exam may be required to be taken on-site at Connelly to verify subject matter competency. Online courses cannot be taken for advancement.

Graduation Requirement: Three years

****Starting with the Class of 2014, one-semester of Financial Literacy must be completed with Personal Finance, Economics or an approved elective.***

TYPICAL MATH COURSE SEQUENCES
(variations exist on these progressions)

	COLLEGE-PREP SEQUENCE	HONORS	HONORS/AP
FRESHMAN	Algebra 1	Honors Algebra 1	Honors Algebra II /Trigonometry
SOPHMORE	Geometry	Honors Geometry	Honors Geometry
JUNIOR	Algebra II	Honors Algebra II	Precalculus or Honors Precalculus
SENIOR	Math Elective	Precalculus or Honors Precalculus or Math Elective	AP Calculus AB or AP Calculus BC

ALGEBRA I 621/622**Semesters****Credits****Grade****Y****10.0****9**

This course actively involves students in thinking, reasoning, and communicating about algebra. Throughout the course, students are introduced to the concept of the variable and its applications by means of organizing thoughts into mathematical sentences and equations. Its challenging, problem-solving investigations further empower students to approach problems logically and responsibly.

HONORS ALGEBRA I 939/940**Y****10.0****9**

This accelerated course covers a broad spectrum of algebraic subjects, investigating these topics to a greater depth than normally experienced in a 1st-year algebra course. To set this course apart from its regular counterpart, the pace of the course will be quicker, students will have additional special homework problems, supplementary assignments and all work will be assessed more critically, and exams will be more difficult than found in a regular algebra course.

Prerequisite: Incoming ninth grade students who have demonstrated strength in their previous mathematics courses will be evaluated for placement at this level.

GEOMETRY 608/609 Y 10.0 10

This is a course in traditional Euclidian geometry. The course is designed to emphasize the study of the properties and applications of common geometric figures in two and three dimensions. Emphasis also is placed on the description and use of inductive and deductive reasoning in problem solving situations, and applications to the real world. Abstract reasoning skills, spatial visualization and logical reasoning patterns are improved through this course. Algebraic principles, including the use of coordinates, are applied to geometric problems. Technology will be used throughout the course as an instructional tool.

Prerequisite: Completion of Algebra I or Algebra II with a C- or better.

HONORS GEOMETRY 956/957 Semesters Credits Grade
Y 10.0 10

This course includes all the subject content of the regular geometry course, but moves at an accelerated pace with greater emphasis on self-directed discovery and learning, which allows for topics to be covered in greater depth and for the inclusion of additional topics. The concept of proof is a substantial focus of the course. Technology will be used throughout the course as an instructional tool.

Prerequisite: An A in Algebra I or at least a B in Honors Algebra I *and* the recommendation of the teacher. Honors Algebra 2 students need to have a least a B- in the course.

ALGEBRA II/TRIGONOMETRY 615/616 Y 10.0 9-12

This course builds upon students' understanding of algebra and introduces fundamental concepts of trigonometry that are necessary for future studies in mathematics and science. Through various explorations, the curriculum promotes understanding and encourages the utilization of mathematical tools to verify this understanding.

Prerequisite: Completion of Algebra I and Geometry with C- or better.

HONORS ALGEBRA II/TRIGONOMETRY 918/919 Y 10.0 9-12

This advanced course gives students a stronger understanding of algebra in addition to more advanced studies in mathematics, including trigonometry, logarithmic and exponential functions, and analytical geometry. Through various explorations, the curriculum promotes understanding and encourages the utilization of mathematical tools to verify this understanding.

Prerequisite: An A in Algebra I or a B in Honors Algebra I; an A in Geometry or a B in Honors Geometry, *and* the recommendation of the instructor. Incoming ninth grade students who have successfully completed Algebra I are evaluated for possible placement at this level.

MATH ELECTIVE:

**BUSINESS MATHEMATICS (620)
AND PERSONAL FINANCE (619)**

F/S 10.0 11-12

This course is designed for students to build upon their previous mathematics background and experience real life mathematics through personal and business financial models. The mathematics of banking, charge accounts, amortization of loans, insurance, business profit/lost scenarios, and marketing will all be explored. **Note:** Students may enroll in one or both semesters.

Prerequisite: Completion of Algebra I and Geometry with a C- or better. Completion of Algebra II with a C- or better is recommended, but concurrent enrollment is allowed with teacher recommendation.

PRECALCULUS 617/618 Y 10.0 11-12

This course is intended for students who have successfully mastered two years of algebra and one year of geometry. It strengthens student understanding of functions of various forms, including radical, rational, trigonometric, exponential and logarithmic functions. Topics in vectors, matrices, series, probability and combinatorics also will be explored.

Prerequisite: At least a B- in Honors Algebra II / Trigonometry and Geometry or an A in Algebra II/Trigonometry and Geometry along with supplementary work and the recommendation of the teacher.

HONORS PRECALCULUS 944/945

Y

10.0

11-12

This course includes all the subject content of the regular precalculus course but in greater detail. To set this course apart from its regular counterpart, students will be given special homework problems, supplementary assignments and all work will be assessed more critically. Lastly, exams will be more difficult than the regular precalculus course.

Prerequisite: At least a B+ in Honors Algebra II / Trigonometry and Geometry.

ADVANCED PLACEMENT

Semesters

Credits

Grade

AP CALCULUS AB 970/971

Y

10.0

12

This is a completely different type of mathematics course requiring an excellent understanding of the concepts of mathematics introduced in previous math courses. The course covers the study of functions and limits, as well as differential and integral calculus. It prepares students for the Advanced Placement Calculus examination. There is an additional early-bird meeting every week with this course.

Prerequisite: A grade of B or better in Precalculus or Honors Precalculus. Prospective students must be comfortable with their previous mathematics courses and demonstrate a willingness to work.

ADVANCED PLACEMENT**AP CALCULUS BC 947/950**

Y

10.0

12

The Advanced Placement Calculus BC class at Cornelia Connelly is a college-level mathematics course that is a continuation of the AP Calculus AB course. Higher-level mathematical problem solving and communication are promoted through the curriculum. The curriculum for the course is split up into four categories: parametric/polar equations as applied to calculus, vectors and the mathematics of space, infinite series, polynomial approximations and AB topics review. It prepares students for the Advanced Placement Calculus BC examination.

Prerequisite: A grade of B or better in AP Calculus AB.

PHYSICAL EDUCATION

Viewing life as a biological unity of mind and body, the Physical Education Department is responsible for teaching skills and developing interest in activities that will serve the students long after their school days are over. Physical education gives individuals the opportunity to learn physiologically sound movement patterns and to build them into avenues of expression essential in performing activities in the home, in the profession or vocation, and in leisure-time pursuits. Physical education establishes standards of behavior that represent the best Christian traditions of rigorous, healthy living.

Graduation Requirement: Four Semesters

PHYSICAL EDUCATION/HEALTH 284/285

Semesters

Credits

Grade

Y

10.0

9

This one-year class includes a variety of activities and sports. The activities may include: Dance/rhythms; individual activities such as fitness and weight training, badminton, speedminton, waveboard, golf, bowling and yoga; team sports such as soccer, speed away, volleyball, lacrosse, field hockey, basketball, softball and flag football.

Health is taught in conjunction with PE and is a one-year course. Topics covered in the health course include the following: Benefits of cardiovascular exercise, nutrition, body composition and portion control, diseases and disorders, alcohol, tobacco and drugs, reproduction, healthy relationships, stress management, time management and organization, CPR and first aid training.

PHYSICAL EDUCATION II 071/072

Y

10.0

10,11,12

This two-semester class includes a variety of activities and sports that are taught in six-week blocks. The activities include: self defense, waveboard, weightlifting, and team activities such as basketball, volleyball, volley tennis, softball, soccer, track, ultimate Frisbee, speed away and flag football. Students may enroll for one or for two semesters.

RELIGIOUS STUDIES

Graduation Requirement: Five credits each semester. Courses in years one through three are required. All religion courses are in accordance with the USCCB high school curriculum framework.

Year 1

Fall Semester:

	Semesters	Credits	Grade
THE REVELATION OF JESUS CHRIST IN SCRIPTURE 295	S	5.0	9

The purpose of this course is to give students a general knowledge and appreciation of the Sacred Scriptures. Through their study of the Bible, they will come to encounter the living word of God, Jesus Christ.

Spring Semester:

WHO IS JESUS CHRIST? 296	S	5.0	9
---------------------------------	---	-----	---

The purpose of this course is to introduce students to the life and person of Jesus Christ as found in the Christian Testament. In learning about Jesus, the students will also learn about whom Jesus calls them to be and how to act in the world.

Year 2

Fall Semester:

THE MISSION OF JESUS CHRIST (THE PASCHAL MYSTERY) 297	S	5.0	10
--	---	-----	----

This course looks at the mission of Jesus, especially His death and resurrection. Students will learn about the meaning of Christian redemption through Jesus and how to respond through discipleship.

Spring Semester:

JESUS CHRIST'S MISSION CONTINUES IN THE CHURCH 298	S	5.0	10
---	---	-----	----

This course examines the essential role of the Catholic Church. Students will learn about the nature, function, and inner workings of the Catholic Church and how the Church brings the gospel of Jesus to every generation.

Year 3

Fall Semester:

SACRAMENTS AS ENCOUNTERS WITH JESUS CHRIST 360	S	5.0	11
---	---	-----	----

This course looks at how the saving grace of Jesus is given to humanity through the sacraments. Students will learn the role of the sacraments in the life of the Church and how to be an active participant in the Church.

Spring Semester:

LIFE IN JESUS CHRIST 361	S	5.0	11
---------------------------------	---	-----	----

This course examines how to live the gospel of Jesus through a holy life. Students will learn the essentials of Christian morality with a focus on logic, reason, faith, and Jesus' commandment of love. Students will also use the Ten Commandments as a framework for examining important moral issues of today's society.

Year 4: Electives

COMPARATIVE RELIGIONS 199	S	5.0	12
----------------------------------	---	-----	----

This course provides a survey of major religious traditions practiced in the modern world from a Roman Catholic perspective. The survey will include: the primal religions of the Americas and other regions; Hinduism, Sikhism, Jainism, Confucianism, Taoism, Judaism, Christian groups, Islam and the legacies of ancient Rome, Greece, and Zoroaster. The course will also discuss ecumenism and interreligious dialogue.

EVANGELIZATION IN SOCIAL COMMUNICATIONS	S	5.0	12
--	---	-----	----

This course examines the important role media and technology play in everyday life and how students can use these tools to build up the Kingdom of God.

SACRED SCRIPTURE

S

5.0

12

This course gives a detailed overview of Scripture with a focus on how to interpret and apply Biblical principles to everyday life. Students will learn about Scripture's purpose and religious significance.

HISTORY OF THE CATHOLIC CHURCH

S

5.0

12

This course gives students a general knowledge of the history of the Church from apostolic times to the present. Students will come to know the Church as the living Body of Christ.

LIVING AS DISCIPLES OF JESUS CHRIST IN SOCIETY

S

5.0

12

This course examines Catholic social teaching with a focus on those most vulnerable especially the poor and needy.

RESPONDING TO THE CALL OF JESUS CHRIST

S

5.0

12

This course gives students an opportunity to investigate the vocations which God may be calling them. Students will learn how each vocation provides an opportunity of service to others.

SCIENCE

The Science Department is instrumental in Connelly's development of young Christian women capable of contributing to a changing world. Science teaches critical thinking, but it also stimulates curiosity and interest while helping the student to understand herself and her environment.

Graduation Requirement: Three years as follows: One year of Biology, Honors Biology or AP Biology and one year of Chemistry, Honors Chemistry or AP Chemistry. The third year course may come from other science offerings.

Three Typical Science Course Progressions: many variations exist on these progressions)

	College Prep.	Honors	Honors/AP
Freshman	Biology	Honors Biology	Honors Chemistry
Sophomore	Chemistry	Honors Chemistry	AP Chemistry
Junior	Oceanography, or Elective	AP Chemistry or AP Biology	AP Biology
Senior	Physics or Elective	Physics or Honors Physics	Honors Physics

Notes:

- 1) Freshman must take a diagnostic science test and have recommendations from their junior high math and science teachers to begin in a science course other than biology.
- 2) Freshman who do well in biology are invited to move over to the honors progression in their sophomore year.
- 3) Three years of science are required at Connelly for graduation, one year of which must be biology course (Biology, Honors Biology, or AP Biology) and one year of which must be a chemistry course (Chemistry, Honors Chemistry or AP Chemistry).
- 4) Two years of lab science are required by the UC system and three years are recommended. Biology, Chemistry, Physics, and Oceanography courses are recognized as lab sciences.
- 5) Some students take physics during their junior year. Others stop taking science courses after an elective in their junior year or take no science junior year and take an elective as seniors. Others double up and take two science courses in their junior or senior years.

BIOLOGY**709/710**

Semesters

Y

Credits

10.0

Grade

9-12

This one-year laboratory course involves the student in biological science. Students are led from discussions of observable phenomena to abstract concepts—one step at a time. Biology is examined as it applies to situations the students see around them. This ecological approach covers cells, reproduction, development, genetics, evolution, classification, microbiology, plants, animals, and human anatomy/physiology. Laboratory work encompasses the microscope, dissections, experiments, and observations.

HONORS BIOLOGY 960/961

Y

10.0

9-12

This one-year laboratory course involves the student in biological science. This honors level biology course will cover chemistry, cells, reproduction, development, genetics, evolution, classification, microbiology, plants, animals, and human anatomy/physiology. Laboratory work encompasses the microscope, dissections, experiments, and observations. Topics will be discussed in greater depth than the college-preparatory biology class.

Prerequisite for Incoming freshman: Passing a science diagnostic test and grades of B+ or better in junior high math and physical science and junior high math and science teacher approvals.

ADVANCED PLACEMENT*AP BIOLOGY 972/973**

Y

10.0

10-12

This one-year course in Biology presents the subject matter with additional emphasis on the biochemical and molecular aspects. A general range of topics is covered, including chemistry, cells, energy, genetics, evolution, classification and characteristics of organisms, plant, animal and human physiology, and ecology. Laboratory work augments the lecture and discussion periods. Students are prepared for and expected to take the AP Biology examination. Students are expected to buy their textbooks the previous spring and do a major reading assignment over the summer. Class size is limited. This course has an earlybird session. In addition, there will be a few Saturday sessions.

Prerequisite: Must meet both science prerequisites with minimum grades listed:

1) Science	Biology A-	Honors Biology B+	
2) Science	Chemistry A-	Honors Chemistry B+	AP Chemistry B

CHEMISTRY 718/719

Y

10.0

10-12

This first-year laboratory course explores the basic concepts of chemistry. Laboratory work is the basis for deriving many of the fundamental principles that will then be examined in detail through lectures, problems, and group discussion. **Prerequisites:** Successful completion of Biology or Honors Biology.

HONORS CHEMISTRY 907/908

Y

10.0

9-12

This first-year Chemistry course is for students who have a strong interest and capability in math and science. Interrelationships between atoms and molecules, chemical bonding, and the kinetic theory are used to explain many natural phenomena — such as heat and color changes, acid-base chemistry, and why reactions occur. Laboratory experimentation includes computer-assisted data collection and analysis.

Prerequisite: Must meet both math and science prerequisites with minimum grades listed:

1) Science	Biology A-	Honors Biology B+	
2) Math	Algebra I A-	Honors Algebra I B+	Honors Algebra II/Trig B

For Incoming freshman: Passing a science diagnostic test with a very high score and grades of A or better in junior high Algebra and physical science and junior high math and science teacher approvals.

ADVANCED PLACEMENT*AP CHEMISTRY 954/955**

Semesters

Credits

Grade

Y

10.0

10-12

This second-year Chemistry course challenges the science-motivated students with more complex experiments, concepts, and problems. Many experiments utilize computer-lab interface equipment for more efficient data gathering and analysis of changes in reaction temperature, color, conductivity, and pH. There are opportunities to explore areas of special interest through science projects and oral and written reports. The course helps prepare students to take the AP Chemistry examination. Lab periods for this course will be held at earlybird time as necessary.

Prerequisite: Completion of Chemistry or Honors Chemistry with an A- or better and Chemistry teacher approval.

ANATOMY AND PHYSIOLOGY 707/727

Y

10.0

11-12

This course is designed for students interested in physical education, nursing, medicine and other health care careers. It provides a comprehensive study of the anatomy and physiology of the human body. Topics include body

organization; homeostasis; cytology; histology; and the integumentary, skeletal, muscular, nervous systems and special senses. Laboratory work includes dissection of preserved specimens, microscopic and macroscopic study, physiologic experiments, computer simulations, and multimedia presentations. Extensive memorization will be necessary to be successful in this course.

Prerequisite: Completion of Biology with a B- or better and completion of Chemistry with a B- or better.

OCEANOGRAPHY 714/715

F/S 10.0 11-12

In the first semester, this course examines the physical features of the ocean floor, the chemical properties of seawater, the geological origin of the oceans and the earth, and the movements of seawater. Marine ecology and biology are studied the second semester. A field trip is taken the second semester which involves working on a research vessel out of Dana Point and exploring nearby tide pools. A special research report is required second semester. Students will take a final exam both semesters. **Note:** This course is offered every other year.

Prerequisite: Satisfactory completion of Biology and Chemistry. **This is not an AP course.** Field trip fees: \$80

NUTRITION SCIENCE 716 (1st Semester)

S 5.0 11-12

This semester course provides an overview of digestion and metabolism of nutrients. Foods will be discussed as a source of nutrition and reviewed as to their effects on nutrition and health. The composition and function of carbohydrates, fats, proteins, minerals, and vitamins will be studied. Current nutrition issues will be emphasized and worldwide problems related to food and nutrition will be discussed. Students will be required to record their own diet, calculate its composition, and evaluate its nutrient content in light of their particular needs. Laboratory exercises and case studies will be included. A research report and/or project will be required in lieu of a final exam. **Note:** This course is offered every other year.

Prerequisite: Satisfactory completion of Biology.

ENVIRONMENTAL SCIENCE 711 (2nd Semester)

S 5.0 11-12

This one-semester course will enable students to develop an understanding of natural and man-made environments and environmental problems in the world today. Students will explore environmental science concepts through an inquiry-based approach that will include laboratory experiences. Topics covered will include earth systems, the living world, human population, water and land resources, energy resources and their consumption, pollution and waste production, global climate change, and civic responsibility. A semester project will be required in lieu of a final exam. **This is not an AP course.**

Prerequisite: Satisfactory completion of Biology and Chemistry.

PHYSICS 720/721

Y 10.0 10-12

This course examines the mechanics of the physical world. Students study phenomena and theories associated with the following topics in elementary physics: mechanics, heat, sound, light, electricity, and magnetism. Work includes demonstrations and individual laboratory experiments.

Prerequisite: Completion of Algebra II/Trig. with a B+ or better and completion of Chemistry and teacher approval and concurrent enrollment in precalculus.

HONORS PHYSICS 974/975

Semesters	Credits	Grade
Y	10.0	11-12

The traditional physics subjects of mechanics, electricity, magnetism, heat, sound, light, and atomic physics are investigated from both conceptual and mathematical perspectives. The level of mathematical sophistication employed requires that students have a strong mathematics background and be comfortable with their mathematics skills, as well as demonstrate a willingness to work.

Prerequisites: Completion of Honors Algebra II/Trig with a B+ or better and Honors Chemistry with a B+ or better or Chemistry with an A or better and teacher approval and concurrent enrollment in AP Calculus. ***NOTE: Courses marked with an asterisk (*) meet one extra period per week at a prescribed earlybird session.**

SOCIAL SCIENCE

The Social Science Department seeks to integrate the teaching of history with the humanities and the social sciences. A graduate of the social science course of study should be able to see the relationship between quantitative social science and the more subjective expressions of the human experience, including art, religion, philosophy, and literature. In addition, she should demonstrate an appreciation of cultural diversity, develop a global perspective and a sense of social justice, as well as display the civic values which are necessary for a healthy democracy.

Graduation Requirement - Three years. Typical sequence is as follows:

- One semester of Ancient History (required for Grade 9)
- Two semesters of World History
- Two semesters of United States History
- One semester American Government
- One semester Financial Literacy Requirement (can be fulfilled by Economics)

	Semesters	Credits	Grade
ANCIENT HISTORY 300/305	S	5.0	9

The purpose of this course is to organize the development of a skill set appropriate for the study of history and the social sciences from grades 9-12. As a result of this course, students will understand the most fundamental social science skills of reading, writing, map reading, primary source analysis research and critical thinking. Particular emphasis will be placed on research as well as writing a thesis statement and a cohesive essay. The purpose of this course is to promote the academic preparedness of Connelly students for college-level social science classes.

	Y	10.0	10
WORLD HISTORY 316/317			

This two semester course is a study of civilization from the Middle Ages through the twentieth century, emphasizing the political, economic, religious, social, and cultural forces at work in human history. Students examine how the roots of today stretch back into our past. In each unit, students focus on the rise of democratic ideas and the unique role of women in history.

	Y	10.0	10
HONORS WORLD HISTORY 958/959			

This course is designed for the more serious student of history. The material covered will extend beyond the regular World History curriculum and will be taught with a college-level text and reader. Sophomores will need approval of BOTH their ninth grade English and Ancient History instructors to enroll in this class. Excellent reading and writing skills are necessary for this advanced history course. Although this is an Honors class and not an Advanced Placement class, guidance will be provided for the students' opportunity to take the A.P. exam in May. Students enrolled in this course will be assigned summer reading and a corresponding assignment.

	Y	10.0	11-12
UNITED STATES HISTORY 318/319			

United States History entails a chronological treatment of the nation's past which includes both its merits and mistakes. The economic, political, geographic, social, and cultural differences and development of the U. S. are explored from the Colonial Period through the modern era. Students enrolled in this course will be assigned summer reading and a corresponding assignment.

	Semesters	Credits	Grade
ADVANCED PLACEMENT AP UNITED STATES HISTORY 976/977	Y	10.0	11-12

This course entails both a chronological and thematic treatment of our nation's past by examining the political, economic, social, and cultural issues that make up the American experience. The course emphasizes the development of writing skills in conjunction with numerous essay assignments, both free form and document based, critical thinking skills with assignments that call for evaluation, synthesis, and reading comprehension skills with supplemental reading assignments in addition to the text. Students enrolled in this course are also assigned extensive summer reading.

Prerequisite: B+ or better in previous Social Science classes, strong writing skills as evidenced by both English and Social Science classes, and approval of the Department Chair.

	S	5.0	11-12
AMERICAN GOVERNMENT 324			

In a general sense, this required course attempts to compare the reality of American government with the ideas established by the Founders. The class focuses on the U. S. Constitution, the roles of the three branches of government, and the distribution of political power in American democracy. Special attention is paid to conflicting political philosophies, the electoral process, the legislative process, the federal budget, civil rights and liberties. Requires completion of U.S. History with a passing grade.

AP AMERICAN GOVERNMENT 331/332

5

10.0

11-12

This course is designed for students who want a more challenging course in government taught at the college level. This class meets the requirements set by College Board to prepare students for the Advanced Placement Exam in May. The class focuses on an in-depth analysis of the U. S. Constitution, three Branches, political philosophies, the federal budget, civil rights and liberties. A summer reading assignment is required to take this course.

Prerequisite: Students will need approval of the Department Chair as well as a grade of B+ or better in U.S. History to qualify. Students are required to enroll in Honors Economics second semester.

ELECTIVES**ANTHROPOLOGY 315**

S

5.0

11-12

This introductory course offers an exploration into the study of humanity and human cultures. Students will concentrate on the development of anthropology as a field of study and its relevance in today's multicultural global community. Additionally, students will learn major theories developed by anthropologists to explain the how and why of human behavior and cultural evolution. The course provides an overview of societies and cultures from Africa, Asia, and the Americas in an attempt to understand human similarity and diversity, providing a foundation from which to view and analyze our own culture as it would appear to an anthropologist.

Prerequisite: Successful completion (C or better) of Ancient History and World History.

ECONOMICS 311

S

5.0

11-12

The general goal of this course is to provide students with grounding in economics at a local, national, and international level. This course introduces students to the basic principles of microeconomics and macroeconomics. Students examine in detail the following topics: laws of supply and demand, types of businesses and the labor market, measures and causes of national economic growth, monetary system, inflation, unemployment, recession, and international trade. **This class may be used to fulfill the Financial Literacy Requirement.**

HONORS ECONOMICS 332

The goal of this course is to provide students an in-depth analysis of the principles of micro- and macro-economics. Students examine the following topics: laws of supply and demand, types of businesses and the labor market, measures and causes of national economic growth, monetary system, inflation, unemployment, recession, and international trade. There is an emphasis on written analysis of data so that students not only recognize the actions of the economy, but also understand why those actions occur. **This class may be used to fulfill the Financial Literacy Requirement.**

Prerequisite: Students will need approval of the Department Chair as well as a grade of B+ or better in U.S. History to qualify.

HISTORY OF WOMEN 278

S

5.0

11-12

The purpose of this course is to provide students with an overview of the role of women in history. Students will explore important themes and historical events and the roles of women in their communities, including: the Renaissance and Reformation, the witch-hunt in Europe, women in the colonial world, women in the Asian and Middle Eastern worlds, women and family, women's influence in government, and the women's rights movement. Students will analyze how women have been affected by historical change and the evolution of women's rights. **Requirements:** Grade of B or better in World History.

MOCK TRIAL 326

Semesters

Credits

Grade

S

5.0

9-12

Classes are scheduled after school and on weekends.

The Constitutional Rights Foundation of Orange County sponsors Mock Trial. Each year a case is written to allow students to learn firsthand what it is like to prepare and present a legal case before California courts. Professional lawyers volunteer as coaches to help students prepare their case, which is ultimately presented in front of federal and district judges at the Orange County Central Courthouse in Santa Ana in a competition against other private and public high schools from Orange County. By studying courtroom procedure and clarifying federal and state

laws, the legal system as a whole will become demystified. Students learn to think quickly on their feet, to sharpen acting skills, to develop an ability to think and work as part of a team. Grading will be on a pass/fail basis.

INTRODUCTION TO PSYCHOLOGY 306

S 5.0 12

The content of this semester course includes the study of the basic principles of psychological theory and practice including human development, personality dynamics, and behavioral processes disorders.

CLOSE-UP FOUNDATION TRIP TO WASHINGTON, D.C.

Juniors and seniors are eligible to attend a week-long government studies program held in Washington, D.C. Throughout the week, students analyze and discuss current issues with students from across the nation. The process enables students to gain an understanding of both their rights and responsibilities as citizens of a democracy. Visits to Capitol Hill include meetings with Congressional representatives, as well as tours of the House and Senate galleries. The week includes "Walking Workshops" to the memorials and various seminar presentations by expert speakers that facilitate the students' understanding of our government.

WORLD LANGUAGE

The study of another language and culture serves to enrich the students' global awareness and to broaden their perspectives. The World Language Department strives for proficiency in communication and understanding by offering a program based on the acquisition of the four skills of language learning: reading, speaking, listening, and writing, as well as by providing opportunities for cultural enrichment.

Graduation Requirement: Three years of the same language.

	Semesters	Credits	Grade
SPANISH I 509/510	Y	10.0	9-12
This entry-level course will begin to develop the four language skills of listening comprehension, reading, writing, and speaking. Students will be exposed to both grammatical and cultural presentations. Course emphasis will be placed on writing and reading skills, as well as conversational communication. DVDs, CDs, online activities, guest speakers and field trips, where appropriate, will be utilized throughout the course.			

SPANISH II 535/536	Y	10.0	9-12
---------------------------	---	------	------

This course is a continuation of Spanish I. In addition to continued cultural presentations, students will study more advanced grammatical structures. Emphasis remains on developmental listening, speaking, writing, reading, and comprehension, with increased emphasis on spoken communication.

Prerequisite: Students must have satisfactorily completed the Spanish I course or its equivalent with a C- or better, as demonstrated by their performance on a comprehensive test.

SPANISH III 537/538	Y	10.0	10-12
----------------------------	---	------	-------

This is an intermediate language course which continues to expand vocabulary, to cover more sophisticated points of grammar, and to expose students to Hispanic culture. The students will progress toward higher levels of proficiency in listening, speaking, writing, and reading comprehension. Students will also write compositions and present oral reports.

Prerequisite: Students must complete Spanish II with a grade of C- or better.

	Semesters	Credits	Grade
HONORS SPANISH III 966/967	Y	10.0	10-11

Spanish III Honors is an intermediate course for the mature student that can work independently. This course seeks to develop advanced levels of proficiency in the four language skill areas of reading, speaking, listening and writing. It is an accelerated course that includes a wide range of topics of Hispanic culture and language, broadening the student's breadth of vocabulary with emphasis on oral communication. **Prerequisite:** Students must have satisfactorily completed Spanish II with a grade of B+ or better or its equivalent and have departmental approval.

SPANISH IV 539/540	Y	10.0	11-12
---------------------------	---	------	-------

In this course, fourth-year students refine and pull together their knowledge from the first three years of Spanish studies. Reading and listening materials are more advanced, and the fine points of Spanish grammar are reviewed.

Students continue to give oral presentations and write compositions on a variety of topics. The study of Hispanic culture continues. Conversation and composition are emphasized.

Prerequisite: Students must have satisfactorily completed the Spanish III course with a grade of B or better or its equivalent.

ADVANCED PLACEMENT

AP SPANISH LANGUAGE & CULTURE 968/969

Y 10.0 11-12

The Advanced Placement Spanish Language course is designed to hone language skills while preparing the student for the National Advanced Placement Exam to be taken at the end of the academic year. This is an *intensive* course, developed for the advanced Spanish student. This course seeks to further develop language proficiency while deepening the student's insight into Hispanic culture. Using the target language, the student will be exposed to the art treasures, music and literature of the Spanish speaking world and will be reading newspapers, listening to podcasts, and viewing and discussing film shorts by modern filmmakers. Using a thematic approach, equal emphasis is given to aural/oral skills, composition, reading and grammar.

Prerequisite: Students must have satisfactorily completed the Spanish III, Honors Spanish III or Spanish IV course with a grade of B+ or better. Department approval is required.

LATIN I 525/526

Y 10.0 9-12

The focus and emphasis of this course is to introduce the student to the study of Latin through grammar, vocabulary, ancient history, and classical studies. Students primarily use Latin grammar texts to begin their understanding of syntax and develop reading skills. The course will seek to immerse the student of Latin into Ancient and Late Antique Roman culture, thereby giving them a background into the foundations of our modern societies. The student will become more familiar and adept at understanding Roman literature, customs, and thought, while also developing their basic study, organization, apprehension, and thinking skills. The first year course will roughly cover half of the Wheelock Latin Grammar, (chapters 1 – 20).

LATIN II 527/528

Y 10.0 9-12

The focus and emphasis of this course is to continue the study of Latin through grammar, vocabulary, ancient history, and classical studies. Students primarily use Latin grammar texts to begin their understanding of syntax and develop reading skills. The course will seek to immerse the student of Latin into Ancient and Late Antique Roman culture, thereby giving them a background into the foundations of our modern societies. The student will become more familiar and adept at understanding Roman literature, customs, and thought, while also developing their basic study, organization, apprehension, and thinking skills. This second year course will roughly cover half of the Wheelock Latin Grammar, (chapters 21 – 40).

Prerequisite: Satisfactory completion of Latin I or its equivalent with a C- or better.

LATIN III 551/552

Y 10.0 10-12

The focus and emphasis of this course is to continue the study of Latin through grammar, vocabulary, ancient history, and classical studies. Students primarily use Latin grammar texts to continue their understanding of syntax and develop reading skills. The course will seek to immerse the student of Latin into Ancient and Late Antique Roman culture, thereby giving them a background into the foundations of our modern societies. The student will become more familiar and adept at understanding Roman literature, customs, and thought, while also developing their basic study, organization, apprehension, and thinking skills. However, while this class will pay attention to grammar, this is a literature course. We will examine various Latin authors and their works, reading un-adapted Latin texts, (most notably, Cicero and Ovid).

Prerequisite: Students must have satisfactorily completed the Latin II course with a C- or better or its equivalent or may be permitted to enroll with special permission from the Department Chair and instructor.

LATIN III HONORS 557/558

Semesters	Credits	Grade
Y	10.0	10-12

The focus and emphasis of this course is to continue the study of Latin through grammar, vocabulary, ancient history, and classical studies. Students primarily use Latin grammar texts to continue their understanding of syntax and develop reading skills. The course will seek to immerse the student of Latin into Ancient and Late Antique Roman culture, thereby giving them a background into the foundation of our modern societies. The student will become more familiar and adept at understanding Roman literature, customs, and thought, while also developing their basic study, organization, apprehension, and thinking skills. However, while this class will still pay

attention to grammar, this is a literature course. We will examine various Latin authors and their works, reading un-adapted Latin texts, (most notably, Cicero and Ovid).

Prerequisite: Students must have satisfactorily completed the Latin II course or its equivalent with a B+ or better. Students may also be permitted to enroll with special permission from the Department Chair and instructor.

ADVANCED PLACEMENT

AP LATIN IV 559/560

Y

10.0

11-12

This AP Latin course is designed to give students the experiences needed to be successful on the College Board AP Latin exam. The goals of the course are to develop the students' abilities to translate the required passages from Caesar's *De bello Gallico* and Vergil's *Aeneid* into English as literally as possible, to help them understand the context of the written passages (including the political, historical, literary, and cultural background of each author and text), and to help them understand the reasons behind the particular style of writing and rhetorical devices employed. The course should also help students to be successful in analyzing Latin passages to understand how and why the author uses the language in a particular way and the effects he is hoping to produce. Students will learn to analyze the text and draw their own logical conclusions. This course should give students tools to read Latin prose and poetry aloud and with some accurate comprehension and appreciation. For the Vergil text, students will learn dactylic hexameter and how it is used to enhance the text and create effect, and students will scan the poetry at least once a week.

Prerequisite: Students must have satisfactorily completed the Latin III course or its equivalent with a B+ or better. Students may also be permitted to enroll with special permission from the department chairperson and instructor.

MANDARIN CHINESE I 549/550

Y

10.0

9-12

This course is designed for the beginning level learner. The goal is to focus on the development of the four language skills (listening, speaking, reading and writing) and to understand the customs and life of modern China. The course objectives are the following: to develop accurate pronunciation through the Pinyin system and basic Chinese Radicals, to understand daily conversation, to be able to read over 100 Chinese characters and paragraphs without Pinyin and to be able to write Chinese characters and short sentences. Cultural activities in the course provide each student with opportunities to enhance language and cultural learning.

MANDARIN CHINESE II 555/556

Y

10.0

9-12

Mandarin Chinese II is designed for students who have completed the Mandarin Chinese I course or who know Han Yu Pin Yin and are able to use simple sentence structures, formulate questions and introduce themselves and their family in Chinese. This course is designed for students who want to further develop the four skills of speaking, listening comprehension, reading and writing in Mandarin Chinese. Emphasis will be placed on fluency, both oral and written. With rich vocabulary resources and detailed grammar help provided, students are expected to produce large amounts of Chinese to be shared in class and online.

Prerequisite: Students must have satisfactorily completed the Mandarin Chinese I course or its equivalent with a C- or better, as demonstrated by their performance on a comprehensive test.

MANDARIN CHINESE III

Mandarin Chinese III is designed for students who have finished Mandarin Chinese II or who are able to use Chinese in daily life, such as to order food in a restaurant, to ask about the weather, time and direction etc. In this course more sophisticated topics relating to language structures and Chinese culture will be introduced. Students will participate in a variety of oral activities to produce improved pronunciation, speaking, reading, and writing abilities.

Prerequisite: Students must have satisfactorily completed the Mandarin Chinese II course or its equivalent with a C- or better, as demonstrated by their performance on a comprehensive test.
